SUMMARY

Sr. Cloud Engineer with 8+ years overall in IT infrastructure and 4+ years focused on DevOps & Cloud — designing, deploying, and operating resilient AWS infrastructure at fintech scale. AWS Certified Solutions Architect — Associate and RHCSA with hands-on expertise in Kubernetes (EKS), Terraform, CI/CD and GitOps (Jenkins, ArgoCD), and DevSecOps. Passionate about reliability, security, automation — and about teaching the next generation of cloud engineers.

EXPERIENCE

Sr. Cloud Engineer — TerraPay Feb 2024 – Present

Full-time · India (Hybrid) | DevOps · Amazon Web Services (AWS)

- Own AWS infrastructure for TerraPay's global money-movement platform — delivering a 99.9%+ uptime track record on payment-critical systems.
- Run CI/CD & GitOps end to end — Jenkins and ArgoCD ship zero-downtime releases across production EKS clusters, with Git-driven rollbacks.
- Codify AWS with Terraform and harden the account — VPC, IAM, security groups, KMS — to PCI-DSS and fintech compliance.
- Operate the observability stack (Prometheus, Grafana, Loki) with runbook-driven alerting — cutting alert noise and mean-time-to-recovery.
- Mentor engineers and conduct technical interviews to grow the platform team.
- Recognized with TerraPay's Superlative Performance Award.

DevOps Engineer — Tata Consultancy Services May 2022 – Feb 2024

Full-time · Bangalore | Prometheus · Kubernetes

- Delivered end-to-end AWS builds — three-tier applications, EKS platforms, serverless, and ECS/Fargate workloads.
- Shipped complete DevSecOps pipelines (Jenkins, SonarQube, Trivy, HashiCorp Vault, ArgoCD), shifting security left in the SDLC.

Network Engineer — Alackrity Consols May 2018 – May 2022

Full-time · Bengaluru, Karnataka, India

- Automated Linux administration and SSL/TLS certificate lifecycle management with Ansible.
- Ran enterprise network operations — CCNA-level TCP/IP, routing & switching — and Sophos firewall management.

SKILLS

Cloud & Infrastructure

AWS (EC2, VPC, EKS, ECS/Fargate, ECR, RDS, IAM, KMS, Lambda), Terraform, Helm, Ansible, Docker

CI/CD & DevSecOps

Jenkins, ArgoCD / GitOps, SonarQube, Trivy, OWASP Dependency-Check, HashiCorp Vault

Version Control & Tools

GitHub, GitLab, Bitbucket, VS Code

Observability

Prometheus, Grafana, Loki, CloudWatch, Alerting & runbooks

OS & Networking

Linux (RHEL/Rocky), Bash, SSL/TLS, TCP/IP, CCNA-level networking, Site-to-Site VPN, Sophos firewall

Application Dev

Python, Java (Spring Boot), React + TypeScript basics

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

Amazon Web Services · Oct 2023 – Oct 2026

Red Hat Certified System Administrator (RHCSA)

Red Hat · EX200 · Dec 2024 – Dec 2027

Advanced Networking (CCNA)

National Skill Development Corporation · Feb 2022

Mastering SSL (TLS), Keys & Certificates

Udemy · Jul 2025

Sophos Firewall Engineer / Technician

Sophos · Feb 2022

EDUCATION

B.E., Computer Engineering

Karnataka, India
